Modern Technology and Medical Equipment
In the Healthcare Field
In efforts to meet the needs and expectations of the community regarding the healthcare services provided by SEHA and its business entities, and in order to maintain leadership within the healthcare sector as a whole, SEHA and its business entities have worked together as one team, for the development of systems and medical equipment & devices across its business entities, in efforts to provide an integrated and comprehensive healthcare and treatment system with the highest levels of quality and international safety. It is relevant to mention that modern medical technology and equipment within the field of healthcare are amongst the most prominent factors driving healthcare forward and towards a prosperous future, as it is a key element in any business entity besides the medical staff, for diagnosis and rapid delivery of treatment services necessary for patients.

In light of this, SEHA and its business entities have worked together as one united entity to implement the approved plans, and the medical devices and equipment have already been supplied for 2016 and 2017 to all the facilities, with a cost estimate of 240 AED million. Currently, the requirements for 2018 are being proposed in the market and the required supply is expected within the second half of 2018. Moreover, and in collaboration with the business entities, we are now in the process of gathering the requirements and needs of medical equipment and devices for the years 2019 and 2020, as a proactive plan.

Finally, we are confident that all the employees at SEHA and its business entities, which is considered to be the biggest healthcare services provider in the country, are highly skilled and competent to provide the best therapeutic services to the patients, and we thank all the teams from the business entities and the Corporate Office, who contributed in implementing the approved plans to ensure the provision of medical equipment and devices within the proper time frame, and for working on improving the operational and financial efficiency and serving patients with kindness.

Dr. Matar Rashed Al Darmaki
Group Chief Executive Officer
NURSING
is a noble and humanitarian profession
The profession of nursing is a noble and humanitarian profession because of its association with human health and the effort to preserve every human's life and alleviate their suffering and sense of pain, as they perform this humanitarian duty for any human while in one of his weakest states of illness and helplessness. As nurses perform their job, they do their best and resort to their empathetic feelings and mobilize all their energy and experiences to help patients overcome their pain.

The profession of nursing is rapidly evolving and changing, which helped its workforce obtain educational, leadership responsibilities and supervision. There are several specialties within the nursing profession, each of which requires many criteria to enable formal and professional practice.

The United Arab Emirates is at the forefront of countries that always strive to raise awareness of the importance of this noble humanitarian profession, its role in raising the level of health in the community, and the role of its employees in maintaining health and improving the quality of services provided by applying the latest methods in clinical practice, and by abiding with the moral responsibilities, which in turn is respected and appreciated by its members and the society.

Moreover, the United Arab Emirates is expected to reach the highest international levels of healthcare quality provision and customer service, in alignment with Abu Dhabi's vision 2030, due to the modern and state-of-the-art plans and programs that are applied by the healthcare sector in general and by the nursing sector in particular.
Mafraq Hospital welcomed the «Year of Zayed» with an exhibition of photographs of the late Sheikh Zayed, displaying his achievements and documenting the expressive humanitarian moments that demonstrated his values.

Corniche Hospital has honored a range of healthcare providers from different disciplines for their excellence and interest in patient care.
The first customer received his premarital screening certificate from Al Qua Healthcare Center, following AHS’s introduction of premarital screening services in five additional centers; Al Bateen and Baniyas in Abu Dhabi and Neima, Al Hayer, and Al Qua in Al Ain.

«Atheer Al Ain» Radio Station broadcast an exclusive episode titled “Thank you Mohammed Bin Zayed”. In line with Sheikh Mohammed Bin Rashid Al Maktoum initiative for thanking his brother Sheikh Mohammed Bin Zayed. The program was broadcasted over an hour, and received a wide response from all SEHA employees. They expressed their pleasure in participating in this initiative, highlighting their great love and appreciation for Sheikh Mohammed bin Zayed.
The Marketing & Communications Section re-launched the «Happy Sunday» initiative in its new look, which is inspired by choosing a quote of the late sheikh Zayed Bin Sultan Al Nahyan, and sharing it with the employees in the beginning of every month, in the early morning. The aim of this initiative is to bring happiness to the staff, celebrate the patriotic spirit, and consolidate the words and wisdom of the late Sheikh Zayed Bin Sultan Al Nahyan, may he rest in peace.
